

# CSTEP SOLIDWORKS WORKSHOP

**Start Date: September 15th, 2022 (Thursdays)**

**Time: 5:00pm**

Great products begin with great design, so SOLIDWORKS offers tools that enable you to get from concept to parts and assemblies. Used by more than 5.6 million designers, engineers, managers, and manufacturers around the world, SOLIDWORKS helps drive smarter, faster and easier product development. SOLIDWORKS helps companies innovate thanks to industry leading capabilities.

## LEARN ENGINEERING DESIGN

Upon completion of this course, students will be able to:

1. Developing parts/assemblies using the solid modeling software.
2. Correctly apply tolerances for parts and assemblies.
3. Have the opportunity to obtain the CSWA Certificate for free!

This course will contain a semester long project that will allow students to learn more about the practical applications of SolidWorks CAD.

Solidworks is a great skill to add to your resume and can increase your chances of landing a design engineer internship!
